Tēnā koe Minister Seymour

REGULATION PORTFOLIO

Congratulations on your appointment as Minister of Regulation. We look forward to working with you over this term.

Engineering New Zealand is New Zealand's largest professional body for engineers, with more than 23,000 members dedicated to engineering better lives for the people of New Zealand. Engineering New Zealand also regulates the engineering profession, as the Registration Authority for Chartered Professional Engineers (Chartered Professional Engineers of New Zealand Act 2002).

Our commitment to this Government, as with previous Governments, is to support you in your portfolio as it relates to engineering and related sectors. We welcome the opportunity to meet with you and discuss priority areas. We are available to connect you with top engineers to discuss matters of national importance.

The Regulation portfolio will be of significant interest to the engineering profession, as regulatory change is needed in some areas, but the scope and phasing of this is important. Attached to this letter is a short briefing on system reforms. We would value the opportunity to talk with you about our members' views.

We look forward to meeting with you to discuss your portfolio and are available at your convenience.

Thank you for your previous support for Engineering New Zealand, such as your keynote speech at the Electrical and Mechanical Engineering Groups joint conference last year.

Nāku, nā
